Time Spent:	Not Specified		
Original estimate:	Not Specified		
Environment:	• Browser: Chrome • OS: Windows 10 • Device: Desktop		

Attachments:	Checkout_bug.mp4
Rank:	0|i000f3:
Sprint:	
Expected Result:	Checkout button should be **disabled** or user should **not be able to proceed** when the cart is empty.
Actual Result:	Checkout button is active, and clicking it navigates to the Checkout: Your Information page.
Steps to Reproduce:	1. Login with standard_user / secret_sauce. 2. Navigate to the Cart page with no items added. 3. Observe that the cart is empty. 4. Click the Checkout button. 5. Notice that the system navigates to the Checkout: Your Information page.

Description

On the Cart page, if no items are added, the system still allows the user to click the Checkout button and proceed to the Checkout: Your Information page
